

06TRKDZR

Track Dozer – 7 hours

Through a combination of classroom theory and hands-on practical operation, the trainee will learn basic fundamentals of track dozer operations. Topics covered include safety systems, safe operating procedures, equipment capabilities, hazards, limitations and hazard controls. Trainee will be required to successfully pass a practical skills assessment. The employer shall instruct each employee in the recognition and avoidance of unsafe conditions and the regulations applicable to his/her work environment to control or eliminate any hazards or other exposure to illness or injury.
